TICI UNICO
The Invisible
Cochlear Implant

Superior Hearing. Fewer Barriers.

Offer your patients hearing they don't have to compromise on. TICI UNICO is the world's first totally implantable cochlear implant, giving your patients the superior hearing performance of MED-EL CIs with fewer barriers than ever before.

- ✓ First commercially available invisible cochlear implant
- ✓ A new level of hearing freedom for your patients
- ✓ Speech perception and sound quality that matches our classic CI systems

Highest precision for personalized cochlear implant surgery

✓ **OTOPLAN**

Enables precise cochlear measurements, allowing accurate electrode selection tailored to the patient's individual anatomy.

✓ **OTOGUIDE**

Supports precise electrode placement through real-time visualization during insertion.

✓ **OTODRIVE**

This allows very slow, controlled movements to be performed, achieving consistent results.

✓ **OTOARM**

Provides precise positioning of surgical instruments while minimizing involuntary hand movements.

ORL Danubius symposium 2026

October 22-24, 2026
Sava Center, Belgrade, Serbia

WELCOME LETTER

Dear Colleagues and Friends,

It is my great pleasure to welcome you to the ORL Danube Symposium 2026, taking place on 22–24 October 2026 at the Sava Center in Belgrade, Serbia.

Our symposium continues the tradition of bringing together colleagues from the Danube region and beyond, united by a commitment to advancing otorhinolaryngology through scientific exchange, education, and collaboration.

The scientific program reflects the breadth of our specialty, covering otology, cochlear implantation, rhinology, skull base surgery, head and neck oncology, and other important areas of clinical practice. Through keynote lectures, instructional courses, and discussions, we hope to encourage the exchange of experience and ideas that will benefit our patients and strengthen our professional community.

I would like to express my sincere gratitude to all speakers, chairpersons, participants, and partners whose contributions make this meeting possible. I particularly encourage our younger colleagues to take an active part, ask questions, and build connections with fellow professionals.

Alongside the scientific sessions, I hope you will find time to enjoy Belgrade and its warm hospitality.

I wish you an inspiring symposium and a memorable stay in our city.

Welcome to Belgrade!

Prof. Nenad Arsović, MD, PhD
President of the Danube Society
President of the Serbian Otorhinolaryngology Society
